100000 €

Branson design barge “Odysseus”

Discover this 16.77-meter by 3.66-meter barge, built in 2006, suited to cruising the waterways in comfort. It features a spacious wheelhouse with a helm station and bench.
Sleeping arrangements include a rear cabin with a double bed and a bathroom with shower and toilet, while the forward cabin also offers a central double bed. Separate showers and toilets at the front add convenience. The barge comes with a fully equipped kitchen, including a 4-burner butane gas stove with gas oven (new in 2023), microwave, and a new 220V fridge-freezer.
The salon features a convertible sofa bed, for hosting guests. For autonomy, the barge is fitted with a 5 kg washing machine and dryer in the engine room, as well as reversible air conditioning for comfort in any season.
The barge was lifted out of the water in 2022 for hull and submerged equipment inspection. It requires some minor refreshing and is suited to living aboard or cruising the waterways.
