BRONSVEEN KOTTER 1480 MOTOR YACHT

The Bronsveen Kotter 1480 reflects the craftsmanship of Dutch boatbuilding. With its classic lines and the quality of its finish, it will appeal to lovers of boats with character. This transom-stern kotter (“spiegelkotter”) has a steel round-bilge hull, with a box keel and bilge keels.
On board, the spaces offer good comfort on long cruises. The large saloon, bathed in natural light through its wide windows, is a warm living area. The built-in galley makes life on board easier, and the layout makes the most of every space.
For the night, the owner’s cabin has a central double bed and plenty of storage. A second cabin accommodates family and friends. The spacious bathroom facilities and the many items of onboard equipment complete the comfort.
Under way, this Bronsveen Kotter 1480 was designed to cruise on inland waterways as well as in coastal navigation (category B). It combines strength, stability and ease of use, with a build quality that has become rare.
This boat has been rigorously maintained over the years. Maintenance work has been closely followed, notably with the repainting below the waterline carried out in 2024. The floors were completely redone in 2026: parquet-effect flooring in the saloon and wheelhouse, tiles in the galley and a new floor in the owner’s cabin.
A fine vessel, suited to boaters looking for an authentic, comfortable Dutch yacht ready to cruise.
Mooring berths are available in our ports at Saint-Jean-de-Losne and Auxonne (21). We can also assist you with your financing arrangements to help bring your project to completion.
