

Saïga: 76 Years of Transformation on the Water

Every boat has a story, and Saïga's is particularly remarkable. Originally built to transport goods along inland waterways, she later became a travelling theatre barge before being transformed into a venue for immersive experiences. Over the decades, she has continuously reinvented herself. Discover the key milestones of her incredible journey.

Cornelia Helena: A life on the water for nearly a century

Built to navigate Europe's inland waterways, Cornelia Helena reflects the golden age of inland water transport. Initially used for freight, this characterful vessel has crossed the decades before being carefully transformed for a new life on the water. Her history blends heritage, craftsmanship and a passion for navigation, making Cornelia Helena a living witness to Europe's inland boating tradition.
