## **AQUANAUT**

Discover this Aquanaut 1100 Flybridge motorboat, a model for river and coastal navigation, combining traditional charm with modern comfort. Built in steel, this Dutch motorboat, 11.40 metres long and 3.70 metres wide, offers good stability and safety on board. With two steering positions — inside and outside — it adapts to different sailing conditions and offers good visibility from the flybridge, which is fully protected by a complete cover to extend your time out on the water in all weathers.

Inside, you will find a well-designed living space. The spacious and bright saloon opens onto a fully equipped galley, while the two cabins can accommodate up to seven people thanks to a convertible dinette. The bathroom is equipped with an electric WC, washbasin and shower.

This model is suited to family cruises, extended stays on board or a life on the water. This boat combines reliability and autonomy.

It should be noted that the antifouling and hull painting were carried out in 2025 and that refresher and refurbishment work was also carried out.

## Features of the boat

| Generalities                                                                                                                                                                                                                                                                                                                                                                              | Technical                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
