BARGE 30M

Discover this 30-meter barge, built in 1934. It retains the charm and authenticity of traditional French inland navigation. Its exterior, carefully preserved, keeps the spirit of the original commercial vessels, with clean lines. Only the wheelhouse has been adapted to meet modern requirements, without compromising the vessel’s character.
Inside, the layout offers a warm and comfortable living environment. The barge features four cabins, suited to accommodating family and guests, each designed to optimise space. The lounge stands out for its generous volumes and natural light, creating a living space suited to both relaxation and entertaining. Extending from this area, the fully equipped galley blends into the overall layout and ensures practical day-to-day use.
This 30-meter barge also benefits from a particular beam, making access to and passage through locks easier, allowing for more accessible navigation across many inland waterways.
Authentic and well fitted out, this barge will appeal to enthusiasts of life on the water seeking a vessel full of character, combining history and comfort.
Please note that the Union Certificate is valid until 2031.
Mooring berths are available in our ports in Saint-Jean-de-Losne and Auxonne (21). We can also assist you with financing solutions to help bring your project to life.
