

BARGE 39.04 M

39.04 m x 5.05 m – 6
couchage(s) – 3 cabine(s)

Mooring place : H2O (Saint-Jean-de-Losne)

245000 €

This characterful Forges de Strasbourg barge, measuring 39.04 metres in length and 5.05 metres in width, is a former working vessel full of history. Completely transformed over time, she has been converted into a true floating reception venue, now offering a capacity of up to 150 guests. Her generous volumes and open layout allow for numerous configurations depending on operational needs.

Spacious and functional, she provides an ideal platform for developing a professional events business: receptions, weddings, seminars, corporate evenings, and private or cultural events. She also features three cabins, which can be used as sleeping accommodation, offices, technical spaces, or dressing rooms depending on the intended activity.

Classified as a 39-metre ERP barge, she complies with current public access regulations, representing a major advantage for immediate professional use. This classification makes it easier to quickly launch a commercial activity.

This 39.04-metre barge represents a rare opportunity for project developers looking to invest in a unique venue combining charm, space, and strong commercial potential.

Moorings are available in our marinas in Saint-Jean-de-Losne and Auxonne (21). We can also assist you with financing solutions to help bring your project to life.
