BOARNCRUISER 41 CLASSIC LINE

This Boarncruiser 41 Classic Line was built in 2003 by the Dutch yard Jachtwerf De Boarnstream. Its steel hull carries a polyester superstructure; 12.40 m long and 4.35 m wide, it is CE category B certified and suitable for both sea and inland waterways.
It has two helm positions. Outside, the helm is sheltered by a canopy and has pilot seats and a large table. Inside, the saloon houses the second helm position; both the saloon and the dinette convert into berths, and the galley has a gas hob and an induction hob, a 220V oven and a microwave. There are two cabins, one aft with a double bed and one forward, two toilets and a shower, as well as a washing machine and a tumble dryer.
On the technical side, it is powered by a 135 hp (99 kW) Perkins M135 engine with about 3,500 hours, and has a Vetus bow thruster and a Vetus stern thruster. A Fischer Panda generator, a diesel-fired boiler for heating and reversible air conditioning complete the equipment. The service batteries and the engine battery were replaced in 2026.
The last hull survey and the repainting below the waterline date from September 2026, and the last engine oil change from April 2026.
