Set sail for adventure with this 1980 Bruce Roberts Spray 40 sailboat, an exciting project for sailing enthusiasts looking for a restoration experience. This yacht needs a little love and attention to bring her back to her former glory, but once restored she promises to provide years of unforgettable sailing.

Ketch with long keel designed by naval architect Bruce Roberts. A solid boat for sailing in all weathers. This boat underwent a major refit in 2004 (replacement of the engine, electrics, paintwork, rigging and sails) but now requires some refurbishment.

The superstructure needs sanding, repair of any rot and a new finish. The rigging components will need to be inspected and, if necessary, replaced to ensure safety at sea. The interior of the boat requires refurbishment, including replacement of flooring, repair of furniture and updating of equipment.

This yacht is being sold at a competitive price to take account of the work required.
