PORTER HAYLETT CONNOISSEUR RIALTO “JUNIPER”

This Connoisseur Rialto 1140 FB was built in 1993 in the United Kingdom by the Porter & Haylett yard. Under her present owners since 2015, she first cruised the Canal de Garonne and the Canal du Midi, then, from 2016, the Saône, the Yonne and the canals of Burgundy, the Nivernais, the Centre, Briare, the Vosges, the Canal latéral à la Loire and the Rhône au Rhin.

The hull is GRP. With 2.50 m air draft and 0.90 m draft, she goes anywhere on the inland network. The accommodation is two double cabins, each with its own basin, WC and shower — an uncommon arrangement on eleven metres.

The boat has been professionally looked after since 2015, laid up fully every winter, with a maintenance record

kept year by year: rudder bearings, steering ram and engine mounts in 2018, new domestic batteries in 2021 and again in 2026, new sun awning and frame in 2021, hull painting in 2022, new water heater in 2023, alternators in 2024, bilge pump in 2026. The detail is available on request.

Stated in full transparency: the tachometer does not work at either helm position, the spotlights probably need replacing, and the Webasto warm-air heating is currently not working.

Features of the boat

Generalities	Technical
Type of boat : Motor Cruisers Length (m) : 11.40 m Width (m) : 3.90 Builder : Porter & Haylett Model : Connoisseur Rialto 1140 FB Year : 1993 Hull : Polyester Superstructure : Polyester Air draft (m) : 2.50 Water draft (m) : 0.90 Navigation : River Category CE : Non applicable	Number of engines : 1 Power per engine (HP) : 43 Engine make : Nannidiesel Engine year : 1993 Fuel : Diesel Engine hours : 7156 Number of propeller blades : 3 Shaft lubrication : Grease Propeller shaft sealing : Classic stuffing box Cruising speed (km/h) : 8 Weight (t) : 6 Propulsion type : Propeller shaft Bilge pump(s) : 1 Service battery(ies) : 3 x 105 AH de 2026 Type of service battery(ies) : Acid Motor battery(ies) : 1 x 105 AH de 2021 Type of motor battery(ies) : Acid Battery charger : Victron,12V/30A Solar panel(s) : 1 Voltage on board : 220V,12V Extra : Expertise de coque du 21 juillet 2015 (André Bouchet).
