143000 €

This elegant 14.71-meter motor cruiser stands out above all for its generous and unusual dimensions, offering exceptional interior volume that is rare for this type of vessel. Designed as a true living space, it provides comfort comparable to that of a home, making it ideal for both inland and coastal cruising in complete peace of mind.

From the moment you step on board, the interior impresses with its particularly spacious, bright, and welcoming atmosphere. The large and inviting saloon offers a comfortable gathering area, while the functional galley integrates seamlessly into the living space. The layout has been carefully designed to optimize volume and simplify daily life, further enhancing the pleasant feeling of a floating home.

In the sleeping area, the cabins—larger than average—comfortably accommodate family and friends, with ample storage space. In addition, the bathroom completes this layout harmoniously, offering equipment well suited for extended stays and reinforcing autonomy and onboard comfort.

Outside, the aft deck provides a generous relaxation area, ideal for fully enjoying cruising or mooring stops. In the same spirit, the spacious and well-protected helm station ensures pleasant, safe, and comfortable handling, even over long distances.

Robust, stable, and easy to handle, this 14.71-meter motor cruiser is equally suited to a liveaboard project or to regular cruising on European waterways.

A boat with exceptional volumes, offering true residential comfort, ready to become a second home on the water.

Moorings are available in our marina in Saint-Jean-de-Losne or in Auxonne (21). We can also assist you with financing arrangements to help bring your project to life.
