BARGE ENTENTE MARINE “ENTENTE 150”

The Entente 150 is a boat built in France by the Entente Marine shipyard, distinguished by its robust and functional design, designed for smooth, autonomous and sustainable navigation on all inland waterways. Commissioned in 2019, this vessel has undergone rigorous maintenance, with an annual overhaul of the engine and generator. It is now ready to sail, with no work required, and offers remarkable comfort on board.

Measuring 14.90 metres long and 4.20 metres wide, the Entente 150 has a large living area, flooded with light thanks to its large windows. The pleasant and welcoming main room comprises a spacious lounge, a dining room and a fully equipped open-plan kitchen. The lounge is convertible, allowing for temporary increases in accommodation capacity during cruises.

The interior layout includes two double cabins, each with its own private bathroom with shower and electric toilet, ensuring comfort and privacy for occupants. This level of finish and functionality makes the Entente 150 ideal for both residential use and long cruises.
