

FORMER 20M TUGBOAT "SIERRA LIMA"

20.95 m x 4 m - 4
couchage(s) - 2 cabine(s)

Mooring place : H2O (Saint-Jean-de-Losne)

89000 €

Built by the Izmail Shipyard, renowned for the robustness of its steel constructions, this former tugboat provides a sound and reliable base for a liveaboard project or a business activity on the water. Converted into a pleasure craft in 1992, it now offers strong development potential.

Its generous interior volumes allow for a wide range of projects, whether as a primary residence, a rental investment, or a professional activity. As such, the current layout is fully adaptable, offering great freedom to design a unique, tailor-made living space to suit your needs.

The exterior areas also offer interesting space, ideal for creating a terrace or relaxation areas to fully enjoy the surrounding environment.

In addition, this vessel represents an excellent opportunity for a complete renovation project, with a solid structure as a starting point. Spacious, robust, and full of potential, it will appeal to those looking for a characterful boat to bring a personalised project to life.

Finally, a hull survey was carried out in February 2026, and the paint below the waterline was redone in April 2026. Interior photos will be available soon.

Mooring berths are available in our marinas in Saint-Jean-de-Losne and Auxonne (21). We can also assist you with financing options to help bring your project to life.
