FREYCINET BARGE 38.71 M

Formerly used for transporting wheat, this 38.71-meter Freycinet barge reflects a rich riverine history. It was later converted into a residence in the 1980s. Extensive compliance upgrades and interior renovations were completed in 2022.
Today, this barge offers a living environment enhanced by three fitted terraces that serve as genuine outdoor spaces, for entertaining, enjoying a sunny lunch, or relaxing on the water in the evening.
Inside, the boat reveals a large living area combining the salon, dining room, and open kitchen, creating a bright and spacious environment. Thanks to generous volumes, smooth circulation, and natural light, the atmosphere is warm.
The fully equipped kitchen, both aesthetic and functional, allows for cooking while staying at the heart of the living space. Every space combines practicality and quality of life on the water.
This 38.71-meter Freycinet barge also features a large 160 m² open hold, fully modular, offering numerous possibilities: extra living space, workshop, offices, gym, or rental project. The hull, sound and regularly maintained, is ready to accommodate new projects.
The EU certificate is valid until 2031 for navigation zones 3 and 4.
