# HELENA CRUISER

Dutch-style steel motor cruiser built in 1980 by the Helena Kruizer yard, this 12.60 m boat was designed for year-round living aboard. Her hull underwent a survey in February 2021 and a complete underwater treatment in 2026, with the hull taken back to bare metal, three coats of primer and antifouling.
The interior offers headroom of 1.80 m throughout. Glass-wool insulation and the interior woodwork (sliding wooden doors, aluminium portholes and frames, insulated wooden flooring) contribute to thermal comfort and to the warm atmosphere of the whole. Heating is provided by a Kabola-type diesel boiler.
Aft, a 9 m² terrace extends the living space. The boat is powered by a 100 hp DAF engine and is suited to comfortable cruising, both inland and coastal.
