JEANNEAU EAU CLAIRE 930 “Cassis”

Discover this Jeanneau Eau Claire 930 inland cruiser. Suited to cruising on canals and rivers, this model will appeal to enthusiasts of relaxed boating thanks to its welcoming layout and generous living space.
With an overall length of 9.30 metres and a beam of approximately 3.57 metres, the Eau Claire 930 offers a comfortable interior space for a boat of this size. Its single-level layout makes moving around on board easy, while the large windows provide plenty of natural light throughout the living areas.
Inside, you will find a spacious saloon with an integrated helm station, allowing you to enjoy navigation while remaining at the heart of life on board. The fully equipped galley provides what is needed for extended stays. The boat also offers several berths for up to four people, thanks to its aft cabin and convertible sleeping areas, along with a bathroom fitted with a shower, washbasin and toilet.
Outside, the wide side decks, handrails and well-designed deck areas ensure safe movement around the vessel. The large roof, together with the foredeck and aft deck terraces, provides space for enjoying stopovers and summer cruising.
Underway, the Jeanneau Eau Claire 930 is powered by a Yanmar diesel engine known for its reliability and fuel efficiency. Its shallow draft of approximately 0.60 metres provides easy access to most inland waterways, while its straightforward handling makes it accessible.
Finally, the boat underwent a complete professional service in 2025, and a full out-of-water survey was carried out the same year.
The boat will be on display in Saint-Jean-de-Losne in July 2026.
Mooring spaces are available in our ports in Saint-Jean-de-Losne and Auxonne (21). We can also assist you with the financing process to help bring your project to completion.
