The Linssen 372 SX is a Dutch motor cruiser built in 1992 by the Linssen Yachts shipyard in Maasbracht (Netherlands). The builder is well known for the robustness of its steel hulls and the quality of its finish.

With a length of 11.50 m, she has a steel hull and superstructure, along with a teak deck throughout. Her design suits mixed navigation, both inland and coastal.

The interior, finished in varnished wood, comprises a saloon with a convertible dinette, an equipped galley, two cabins and an inside helm station. A second helm station is fitted on the aft deck. The boat offers good headroom, two WCs and a shower.

The Linssen 372 SX is valued for its stability and manoeuvrability. Generator, and service and engine batteries

replaced in 2023.

Moorings are available at our ports in Saint-Jean-de-Losne and Auxonne (21). We can also assist you with financing arrangements to help bring your project to completion.
