Thanks to its shallow draught, it can be sailed anywhere, thanks to its economical engine.
The interior is full of charm and possibilities. It comprises a fully equipped kitchen, a spacious lounge/dining room and two cabins with two bathrooms. The entire floor was redone in March 2024.The bed in the back bedroom can be positioned differently for a more comfortable layout. This barge has lots of windows, most of which are double-glazed, making it a well-insulated boat.
You'll find a beautiful terrace at the front and a second one at the back. This barge is also equipped with solar panels and a generator, so is completely self-sufficient. It's ideal for river cruising, but can also be sailed on the coast with its CE category C certificate.
Already occupied year-round, it's perfect for a life-on-the-water project.
