## PASSENGER BOAT

Discover this 28-meter steel passenger riverboat, built in 1904 and certified to carry up to 75 passengers on cruises (zone 4). With a dining capacity of 54 guests, this vessel is suited to hosting events and cruises. It offers a balance of capacity, safety, and comfort while complying with current public transportation regulations on inland waterways.
The interior layout is tailored for professional use. The well-equipped galley includes a gas cooktop, gas oven, microwave, 220V refrigerator, and freezer — everything needed to prepare meals onboard for passengers during cruises or private functions.
Key onboard features include a manual toilet and a hydraulic steering station. Carefully maintained, this

passenger boat stands out for its low fuel consumption.
For safety, the boat is equipped with a gas detector, fire detector, and an alarm system.
The boat also comes with a valid community certificate until January 13, 2027, allowing for continued professional operation.
This passenger vessel is suited to tourism or river cruise professionals seeking a reliable, regulation-compliant, and ready-to-use boat. It is also worth noting that the boat can be converted into a floating home — an alternative for a lifestyle project on the water.
