This 39.08-meter-long and 5.04-meter-wide barge, built in 1964, represents an excellent opportunity for a life-on-the-water project or a professional use. Thanks to its generous volume and flexible layout, it can easily be converted into a comfortable liveaboard boat, suitable as a primary residence or for tourist use.

Access is via a functional wheelhouse offering good visibility for navigation. Inside, the fully equipped kitchen allows comfortable daily life on board and already includes a hob, oven, 220V refrigerator, microwave, and dishwasher. Continuing through the layout, the sleeping area features a cabin with a double bed, accompanied by a bathroom with WC, providing a practical and self-contained living space.

In terms of maintenance, the last hull repaint below the waterline dates from 2022, ensuring a solid recent

maintenance base. The community certificate is valid until 2029, allowing navigation in zones 3 and 4 in France as well as zones 3 and 4 in the Netherlands.

Finally, in terms of navigation equipment, this barge is fitted with a GPS, chart plotter, VHF, radar, autopilot, rudder indicator, compass, and intercom, ensuring safe and comfortable cruising.

With its many technical advantages and strong conversion potential, this 39.08-meter barge provides an ideal foundation for a fully customized river project.
