Discover this President Ranger 43 motorboat, a liveaboard vessel measuring 14.22 metres long and 4.22 metres wide, built in 1990. Renowned for its quality construction, stability and robust materials, this motorboat is an excellent opportunity for a year-round living project or for extended cruises, both at sea and on rivers.

This motorboat has a semi-planing hull with pronounced bilges, made of foam sandwich construction for optimal rigidity and lightness, while its teak gunwales and cream-coloured hull give it a classic and elegant marine look. The interior is particularly pleasant and has been designed to offer true residential comfort. The spaces are generous, the flow is smooth and the quality materials contribute to a warm and durable atmosphere. The motorboat has two cabins, accommodating up to four people thanks to a double bed and two single beds, ideal

for entertaining family or friends.

The boat has two bathrooms, each equipped with a shower and electric toilet. The fully equipped kitchen allows you to live on board as if you were at home: induction hob, 220V oven, refrigerators, freezer and microwave provide a complete and functional range of appliances.

Outside, this President Ranger 43 speedboat impresses with its large sun deck, perfect for enjoying sailing trips and stopovers. Its excellent manoeuvrability makes it an accessible boat. It has a generator and solar panels, ensuring excellent energy independence.

In terms of motorisation, two Caterpillar 3208T turbocharged engines, each with 320 hp, propel the boat efficiently. The last engine oil change was in February 2025, with only 10 additional hours on the engine since then.

Finally, the boat has a black water tank.

Mooring spaces are available in our ports in Saint-Jean-de-Losne and Auxonne (21). We can also assist you with financing to help you realise your project.
