55000 €

Exceptional Steilsteven barge preserved with the greatest care in its original condition. This offer is aimed at collectors who love authenticity and are looking for a boat that is both spacious and full of character. In October 2021, a survey of the hull below the waterline was carried out, followed by painting, guaranteeing a solid foundation for your restoration project. Some work is needed to bring this jewel back to its full splendour, including refurbishment of the superstructure. To this must be added the work to bring her up to the standards required to obtain a Community certificate.

This boat has a 27m² workshop at the bow that can be converted into living space.
