SUCCES YACHTS 125 ULTRA “ROSI”

Discover this Succes 125 Ultra motor yacht, a 12.5-meter-long and 4-meter-wide liveaboard boat, built in 1998, suited to a river or coastal cruising project, or to year-round living on board. Known for its build quality and generous interior space, this motor yacht offers a balance between maneuverability, stability, and comfort. Its exterior helm station frees up additional interior space. The Succes 125 Ultra was designed and built by the Succes Jachten yard at Marknesse (Netherlands), with a steel hard-chine hull.
The warm wooden interior creates a friendly and authentic atmosphere. The boat benefits from ample natural light. At the heart of this space, the spacious salon serves as a living area, for relaxation and shared moments.
Continuing along, the fully equipped and functional kitchen makes onboard cooking easy. At the aft, the cabin with a central double bed provides sleeping and ample storage, suited to extended stays. The bathroom includes a shower and an electric toilet. A second electric toilet at the bow adds daily convenience.
This Succes 125 Ultra is in good overall condition. The boat has benefited from substantial work in recent years. In 2023 the hull was fully refurbished during a haul-out: complete sanding, epoxy primer, top-coat and antifouling. In 2024 came the repainting of the superstructure and deck, with non-slip side decks, the refurbishment of the aft cabin, a new Mastervolt charger-inverter, new service and starter batteries, a Seatec 250 tender and new fenders. The bimini and the cockpit cover were overhauled in 2023. Earlier, in 2016, the underwater hull was sandblasted and epoxy-coated. She is fitted with a 95 kgf Vetus bow thruster and a 7,000 W Victron isolation transformer. Heating is provided by a Webasto warm-air system, and all the crockery stays on board.
Moorings are available in our ports at Saint-Jean-de-Losne and Auxonne (21). We can also assist you with financing arrangements to help make your project a reality.
