

TRADITIONAL LIGHTSHIP

43.81 m x 7.60 m - 0 couchage(s) - 0 cabine(s)

Mooring place : South of france

120000 €

Discover this incredible authentic lighthouse boat. This historic heritage building was built in England in 1939. Initially designed to serve as an anchorage point for the ship during the Second World War, it was later converted into a museum in Amsterdam and eventually towed to France to be transformed into an incredible venue for shows and concerts. After restoration and a complete overhaul between 2018 and 2020, it received its category 4 floating establishment certificate in 2021, allowing it to accommodate up to 299 people.

A breathtaking roof top can accommodate up to 150 people and is a veritable belvedere overlooking the water and the port. It has its own bar, perfect for after-work receptions. The main deck has a restaurant seating around 70. It has a large kitchen fully equipped with professional equipment. Finally, the hold offers a gigantic concert and events room with a bar area.
