The Vri-Jon motor yacht, built by the renowned Vri-Jon DSA Yachts shipyard in Ossenzijl, the Netherlands, combines Dutch craftsmanship with exceptional build quality. Vri-Jon constructs its vessels in steel, following the proud Dutch naval tradition, and provides meticulous handcrafted finishes, making them renowned for their robustness and elegance.

Designed to offer both comfort and safety, this motor yacht stands out with its displacement hull, ensuring stability and serenity while underway. The interior, spacious and bright, features a functional layout designed for life on board, including a welcoming saloon, a fully equipped galley (gas stove, 220V refrigerator), and two comfortable cabins, notably a spacious aft double cabin.

Additionally, the elevated exterior deck provides a prime space for relaxation, outdoor dining, or piloting in convivial comfort. Thanks to its shallow air draft and significant range, this motor yacht is equally suited for European canals and rivers as well as maritime excursions.

The last antifouling was completed in 2023, and the deck was repainted in 2025.

In summary, a true symbol of Dutch craftsmanship, this Vri-Jon motor yacht embodies reliability, elegance, and the joy of navigating freely.
